

APPENDIX F – Addendum W *for 2016 – includes changes approved in Palma and Sanya*

KITEBOARD WAVE RULES

Kiteboard wave performance events shall be sailed under The Racing Rules of Sailing as changed by this appendix. The term ‘boat’ elsewhere in the racing rules means ‘kiteboard’ or ‘boat’ as appropriate. The term ‘race’ elsewhere in the racing rules means ‘heat’, ‘competition’, or ‘race’ as appropriate.

Note: Rules for other kiteboard competitions formats are not included in this appendix. Links to current versions of these rules can be found on the World Sailing website or IKA website.

CHANGES AND ADDITIONS TO THE DEFINITIONS

The definitions *Clear Astern* and *Clear Ahead*; *Overlap*, , *Keep Clear*, *Leeward* and *Windward*, *Obstruction*, , *Tack*, *Starboard* or *Port* and *Zone* are changed to:

Clear Astern and Clear Ahead; Overlap One kiteboard is *clear astern* of another when her hull is behind a line abeam from the aftermost point of the other kiteboard’s hull. The other kiteboard is *clear ahead*. They *overlap* when neither is *clear astern*. However, they also *overlap* when a kiteboard between them *overlaps* both. These terms always apply to kiteboards on the same *tack*. They do not apply to kiteboards on opposite *tacks* unless rule 18 applies or both kiteboards are sailing more than ninety degrees from the true wind.

Keep Clear A kiteboard *keeps clear* of a right-of-way kiteboard

- (a) if the right-of-way kiteboard can sail her course and execute a *trick or manouever* with no need to take avoiding action and,

- (b) when the kiteboards are *overlapped*, if the right-of-way kiteboard can also, without immediately making contact, change course in both directions or move her kite in any direction.

Leeward and Windward A kiteboard's *leeward* side is the side that is or, when she is head to wind, was away from the wind. However, when sailing by the lee or directly downwind, her *leeward* side is the side on which her kite lies. The other side is her *windward* side. When two kiteboards on the same *tack overlap*, the one whose hull is on the *leeward* side of the other's hull is the *leeward* kiteboard. The other is the *windward* kiteboard.

Obstruction An object that a kiteboard could not pass without changing course substantially, if she were sailing directly towards it and 10 metres from it. An object that can be safely passed on only one side and an area so designated by the sailing instructions are also *obstructions*. However, a kiteboard *racing* is not an *obstruction* to other kiteboards unless they are required to *keep clear* of her or, if rule 23 applies, avoid her. A vessel under way, including a kiteboard *racing*, is never a continuing *obstruction*.

Zone The area dedicated in the Sailing Instructions to perform a *trick or manouver*. A kiteboard is in the *zone* when any part of her hull is in the *zone*.

Add the following definitions:

Capsized A kiteboard is *capsized* if

- (a) her kite is in the water,
- (b) her lines are tangled with another kiteboard's lines, or
- (c) the competitor has, clearly by accident and for a significant period of time,
 - (1) fallen into the water or
 - (2) become disconnected from the hull.

Interference A kiteboard *interferes* with another kiteboard if it reduces the scoring potential of another kiteboard performing that may attempt a *trick or manoeuvre* or it is breaking down a section that the right of way kiteboard would have used as scoring potential.

Judging Panel A *Judging Panel* is the part of the race committee that awards points based on technical difficulty and expression to the *trick or manouver* performed by a kiteboard.

Jumping A kiteboard is *jumping* when her hull, its appendages and the competitor are clear of the water.

Trick or Manouvre A kiteboard is performing a *trick or manouvre* when she, while being in the zone, is acting in a way to be scored by the *judging panel*.

Recovering A kiteboard is *recovering* from the time her kite is out of the water until she has steerage way.

16.2 In addition, when after the starting signal a *port-tack* kiteboard is *keeping clear* by sailing to pass astern of a

starboard-tack kiteboard, the *starboard-tack* kiteboard shall not change course or the position of her kite if as a result the *port-tack* kiteboard would immediately need to change course or the position of her kite to continue *keeping clear*.

F2.18.3 AVOIDING INTERFERENCE

A Kiteboard which is not in possession shall keep clear of a kiteboard that has possession

F.21 EXONERATION

When a kiteboard is in possession of a wave shall be exonerated if, in an incident with another kiteboard she breaks a rule of Section A and B.

22 JUMPING

Rule 22 is changed to: When outside the *zone*, a kiteboard that is *jumping* shall *keep clear* of one that is not.

- (a) because of a significant error in the timing procedure
- (b) because of foul weather
- (c) because of insufficient wind that makes it unlikely that any kiteboard can perform the required number of *tricks or manouvers*

- (a) for the first time, the penalty shall be a 50% reduction in the score of her second best scoring trick or manoeuvre. In addition, if the interference occurs while both kiteboards are on the same wave, this wave will be scored with zero points for the interfering kiteboard. In this case, the interfering kiteboard is allowed one additional wave over the maximum wave count.
- (b) for the second time, she shall be disqualified without a hearing..

F8 CHANGES TO APPENDIX A

A1 WAVE RIDING COMPETITION SCORING

- (a) Wave riding competition shall be scored by a panel of three judges. However, the panel may have a greater odd number of members, and there may be two such panels. Each judge shall give points for each manoeuvre based on technical difficulty and execution.
- (b) The criteria of scoring shall be stated in the Notice of Race.
- (c) A kiteboard’s heat standing shall be the total of the scores for each *trick or manoeuvre* as outlined in FF.W.1(a). Each individual *trick or manoeuvres* score shall be determined by averaging the points given by each judge in each category. The kiteboard with the highest score wins and others

shall be ranked accordingly. If there is a greater number of judges than three, the highest and the lowest scores shall be excluded before calculating the average score for each individual manoeuvre.

- (d) The semi finals shall be reached for an elimination series to be valid.
- (f) Scoring decisions of the judges shall not be grounds for a request for redress by a board.

A2 HEAT TIES

- (a) In a heat, if there is a tie in the total points, it shall be broken in favour of the kiteboard with the higher single score, the second highest score and so on.
- (b) If the tie remains, it shall be broken by summarizing the best 3, best 4 etc. individual wave scores of each kiteboard.

A3 TRICK OR MANOUVRE SCORING

- (a) A Kiteboard shall be scored only when performing the *trick or manoeuvre* in the *zone*. Whether a kiteboard is inside or outside the *zone* is at the absolute discretion of the Head Judge, or senior judge of the respective judging panel, and not a valid ground for redress
- (b) Dropping into a wave and dropping out again without initiating a wave ride will not be scored and does not affect the max wave count of the kiteboard in question. In general, a wave is ridden when a bottom turn is completed and a top turn initiated.
- (b) Each judge shall award each competitors *trick or manoeuvre* points on a scale from 0.1 to 10 in increments of 1/10th of a point with the following meaning:

- 0.1-1.9: bad wave
- 2.0-3.9: poor wave
- 4.0-5.9: average wave
- 6.0-7.9: good wave
- 8.0-10.0: excellent wave

If a judge misses a *trick or manoeuvre*, or parts of it, he will mark the attempt with an “M”. The score for this *trick or manoeuvre* will be calculated by averaging the other judges scores.

- (c) Once a kiteboard has reached the maximum number of wave ride attempts per heat, the competitor will no longer be scored during the heat.

APPENDIX A RULES DELETED
